

ResidentGUARD Security Systems

FOR COMPLETE SAFETY

Complete resident security and peace of mind

Economical and Effective "Wanderer Security"

ResidentGUARD Systems protect residents and provide family members and staff complete peace of mind!

Clinical Staff will be able to spend more time caring for residents and less time managing a security system. Administrators will love the low cost of ownership!

There are three options when selecting a Wanderer Security System from Accutech. The options are based on need and budget. All Accutech ResidentGUARD Systems incorporate the same state-of-the-art RFID tags and receivers.

- ResidentGUARD IS-3200 System - A computer enhanced, software based system designed to deliver maximum capabilities coupled with ease-of-use operation. Designed for facilities where Resident Identification is necessary to provide the best resident security.
- ResidentGUARD ES-2200 System - All the key benefits of a patient wandering system including loiter and door ajar alarm monitoring, but without a computer. It's easy to use and can be installed and serviced by your maintenance personnel.
- ResidentGUARD LC-1200 System - The ideal entry-level solution for facilities that want a quick, cost-effective solution. It can be set up as a stand-alone system and installed and maintained by your maintenance staff.

With Accutech, you get the affordable wanderer security solutions you need for complete resident security and peace of mind.

Growing demand for security

Families expect their loved ones to be cared for in safe, secure facilities. As the demand increases for long-term elderly care, wanderer security systems become a necessity. Liability concerns also require facilities like yours to take preventative measures to meet this need.

Elderly populations are showing an increase in dementia, which is one of the most important health issues affecting resident security. Accutech's affordable ResidentGUARD Wanderer Security Systems allow you to provide your residents with complete safety and care without limiting their freedom.

With Accutech's experience, quality and service, we can help you choose a wanderer security system that addresses your needs so you can continue to provide excellent resident care.

Family members know their loved ones are safe and secure with Accutech's ResidentGUARD Systems.

Lightweight, watertight tags ensure resident safety. ResidentGUARD tags feature a one year non-prorated warranty and are UL listed.

Tags can be turned on and off to maximize battery life. When in use, the red flashing LED on the face of the Tag lets your staff know that your resident is protected and the tag is functioning.

ResidentGUARD Defines Complete Resident Safety

Benefits:

- Notifies staff if residents try to leave the facility
- Saves time and money with its simple operation
- Residents can be bathed in safety and comfort
- Enhances resident safety.
- Significantly lowers costs by increasing tag life
- Increases resident safety
- Provides residents with dignity
- Notifies staff if protected doors are left open

System Features:

- Alarm information with complete history of activity
- Multiple floor monitoring capability
- Easy to clean watertight tags
- Double-conditioning design to prevent false alarms
- ResidentGUARD tags can be turned on and off to extend battery life
- Hand held tag activator, de-activator and tester
- Software enhanced
- Non-computer dependant. Continued security even without a computer
- Cut Band detection option available

Families can't always be there, but they will have peace of mind knowing their loved one is safe and comfortable in your facility.

Accutech's full range of Wanderer Security System products allows you to choose a system that fits your budget and facility's needs. We offer you the option of corporate, government and GPO pricing.

Our ResidentGUARD ES-2200 and IS-3200 systems meet FCC, NFP, NEC and UL requirements and are rigorously tested for performance. You'll receive superior customer service with a network of 24-hour local service providers for quick and economical support.

Your system's quality is ensured with a one-year, non-prorated warranty on all parts and services. In addition, you'll receive free software updates with a one-time software license fee for guaranteed performance and satisfaction.

Product comparison chart
